Amit Kumar

Passionate Web Developer
As a dedicated web developer at DigitalWolf Kolkata since August 5, 2024, I have honed my skills in designing and developing efficient, user-centric web solutions. Combining creativity, technical expertise, and a collaborative mindset, I contribute to delivering high-quality projects that align with business goals and user expectations.

Workplace Projects

Tutopia E-commerce Website Development

It is a web application designed for online shopping, offering a seamless browsing and purchasing experience.

Features:-

- Developed a responsive frontend optimized for mobile and desktop views.
- Implemented dynamic product listings, category filters, and a smooth checkout process.
- Integrated API calls to fetch and display real-time product data and user-specific details.

Tech Stack: Next.js | Tailwind CSS | JavaScript

Areas of responsibility

- Designed and developed the frontend using Next.js and Tailwind CSS, ensuring a modern and user-friendly interface.
- Handled API integration for fetching and displaying product details, managing cart operations, and processing orders.
- Ensured compatibility and responsiveness across both mobile and desktop devices.
- Optimized API handling for efficient data fetching and seamless user experience.
- Collaborated on testing and debugging to ensure smooth functionality and eliminate errors.
- Successfully completed the project within a span of two months.

Hi-Tech Animation Web Development

It is a web application built for showcasing animation services and products.

Features:-

- Designed and developed a responsive frontend optimized for mobile and desktop views.
- Ensured seamless navigation and performance across various devices.
- Created visually appealing pages with modern design principles.

Tech Stack: Next.js | Tailwind CSS | JavaScript

Areas of responsibility

- Developed and integrated key components of the frontend using Next.js.
- Optimized layouts for mobile screens and desktop interfaces to ensure consistent user experience.
- Conducted thorough testing to ensure cross-browser compatibility and responsiveness.
- Successfully completed the project within a span of two weeks.

DeysMedical Continuous Project

As part of a continuous project, I have been working on the development of DeysMedical using JavaScript, HTML, and Tailwind CSS. Over two weeks, I focused on building a responsive and user-friendly interface that aligns with the client's medical service needs.

The DeysMedical project has been completed and is now live on GitHub. The responsive and user-friendly interface, built using JavaScript, HTML, and Tailwind CSS, aligns perfectly with the client's medical service requirements.
